*The Luxury Of Comfort By The World's Leading Manufacturer
Of Residential Heating & Cooling Systems.*

Carrier Products Distributed
In This Area By
Peirce-Pheggs, Incorporated
Philadelphia PA
Succeeding By Helping
Our Customers Succeed, Since 1926

Carrier Comfort Choice Options:

Infinity Package

Up to 19 SEER / 2 Speed

**Infinity™ 19 Heat Pump
Carrier Model 25HNA9**

AFUE up to 96% +

**Model FE4ANF Infinity Fan Coil
with exclusive Infinity Control**

- Puron® refrigerant
- WeatherArmor Ultra™ protection
- Silencer System II™ for sound as low as 69 dBA
- Two-stage scroll compressor
- Advanced heat transfer surfaces
- High and low pressure switches
- Back-seating service valves
- Warranty: 10-year compressor/5-year on parts

*Infinity
Controller*

- Maximizes system efficiency (increased SEER)
- Puron® TXV (Thermostatic Expansion Valve) factory installed, maximizes performance
- Ultra-low power consumption during fan only operation
- Smart Diagnostics™ self configuring & easier troubleshooting
- Improved humidity control with Carrier Infinity Control
- 5-year parts warranty
- Infinity Control

Performance Package

**Performance™ 15
Heat Pump
Model 25HPA5**

- 15 SEER / 11.5 EER
- Puron® refrigerant
- WeatherArmor™ System
- Silencer System II™ for sound as low as 69 dBA
- Reliability, Quality and Durability
- Scroll Compressor
- Diagnostics At-A-Glance
- Limited warranty 5 years on parts and 10 years on compressor

**Model FV4BNF
Variable Speed
Fan Coil**

- ComfortHeat™ Technology with Thermidistat™ Control
- Puron® refrigerant
- High efficiency blower motor
- Quiet operating sound
- Automatically adjusts heating stage times to meet demand
- Easy Select™ control board
- 5-year parts warranty

Base Package

**Base™ Series 13
Heat Pump
Model 25HBA3**

- 13 SEER energy efficiency
- Reliable entry level model
- Sound as low as 75 dBA
- 5-year compressor warranty
- 5-year parts warranty

**Model FY4ANF
Base Fan Coil**

- Puron® factory installed Thermostatic Expansion Valves (TXV)
- 2 or 3 speed motor
- Quiet operating sound
- 5-year parts warranty

*Choose Only Factory-Trained Professionals
To Install Your New Comfort System*

Puron® Refrigerant Is The Proven Alternative For Comfort & Savings.

Puron® Refrigerant is the long-term solution for environmentally sound cooling.

Carrier has always been known for comfort, reliability and savings, and the tradition continues with Puron® refrigerant, which was developed to provide cooling without depleting the earth's ozone layer.

Puron® refrigerant replaces Freon® 22 which is being phased out of air conditioning systems by federal law. Typically, as a refrigerant is phased out, the cost increases for servicing products using the older refrigerant.

Puron® Refrigerant Is The Right Choice For Today & Tomorrow.

It is chlorine-free, offers higher levels of energy efficiency and helps protect you from the future costs of maintaining a system using Freon® 22. All in all, this means worry-free home comfort for you today and tomorrow.

Puron® Refrigerant Offers:

- Carrier's most reliable systems
- Protection from future service cost concerns
- High energy efficiency
- Environmentally responsible
- Quiet operation

Indoor Air Quality Options For Healthier Living Add Value To Your Home

Infinity™ Air Purifier

The Infinity™ Air Purifier is designed for use in the return air duct of a forced air heating, cooling, and ventilation system. The Infinity™ Air Purifier both captures and kills airborne viruses, bacteria, mold spores, and allergens. It combines superior filtration efficiency, equivalent to MERV 15, with pathogen-killing technology to deliver maximum air purification.

Electronic Air Cleaner

Electronic air Cleaner removes significantly greater levels of dust, smoke and pollen than standard filters. Many forms of airborne bacteria and viruses can be removed with an electronic air cleaner. Less house cleaning too! Removes particles as small as .01 microns.

Humidifier

Whole house humidifier provides needed moisture in winter months. Proper humidity control can eliminate static electricity and dry skin while protecting valuable home furnishings.

Standby Generator

Superior power and convenience over portable generators. Fueled by natural or LP gas, the Carrier generator will operate indefinitely as long as the natural gas supply is available. Unit is designed for minimal noise.

Ultraviolet Light System

The UV light works to clean the coil and prevent the growth of fungus on and around the coil.
